Soe Reh

Austin, TX | (512) 576-9643 | soereh@utexas.edu | soereh.me | linkedin.com/in/soe | github.com/Soe-Reh

EDUCATION

University of Texas at Austin May 2028

Bachelor of Business Administration in Management Information Systems, Minor in Computer Science GPA: 3.75/4.00

- **Relevant Coursework:** Product Management, Data Structures & Algorithms, Software Development, Database Management, Statistics

EXPERIENCE

Accenture June 2026 – August 2026

Product Development Summer Analyst Austin, TX

- Partnered with engineers to ship comment tagging, document upload, and notification features for a state Medicaid oversight platform with 10,000+ users so staff could flag issues in health plan reports, assign reviewers, and track every fix, lifting repeat engagement 30% within 6 weeks
- Built a multi-agent AI system that wrote and ran QA regression tests and flagged failures, cutting manual testing time 50% each release cycle
- Wrote PRDs, user stories, and acceptance criteria with stakeholders on 5 cross-functional teams, reducing rework tickets per sprint from 8 to 3

E3 Alliance January 2026 – April 2026

Product Management Fellow Austin, TX

- Led product work on a K-12 district intelligence platform serving 40+ users in 15 partner school districts, ran 20+ user interviews to redesign 4 core workflows, and delivered a roadmap and self-serve reports that cut weekly data requests to the research team 35% in the first month
- Automated executive reporting across 15 school districts with a Python and R pipeline, cutting monthly reporting time from 12 hours to 2
- Audited 8 workflows and 3 data pipelines for AI opportunities, found 12 bottlenecks, and prioritized the top 5, all approved for the roadmap

Michael & Susan Dell Foundation June 2025 – August 2025

Technical Program Management Intern Austin, TX

- Drove requirements and QA testing for Ed-Fi Data Standard v5.0 and ODS/API v5.4, cutting data inconsistencies 25% across state reporting
- Automated data extraction from 1,000+ student records with a Node.js pipeline, reducing report generation time 60% for partner districts
- Facilitated sprint planning for 3 cross-functional teams and resolved 7+ API integration blockers to deliver Ed-Fi product releases on schedule

Shoal Creek Conservancy September 2024 – December 2024

Business Analyst Intern Austin, TX

- Analyzed email, social media, and community event data to define success metrics and content strategy, lifting social engagement 50%
- Built a participation tracking framework linking volunteer activities to engagement outcomes for the Conservancy's restoration programs

PROJECTS

Multi-Account MCP | *TypeScript, Node.js, MCP, OAuth 2.0, Claude Code* November 2026

- Published an open-source MCP server with 800+ npm downloads that lets Claude, Cursor, and other AI tools search, read, and draft across inboxes
- Added PDF, Word, Excel, and scanned attachment reading across 6 MCP tools, stored logins in the OS keychain, and wrote 330+ automated tests

SoesCloset | *UI/UX, User Flows, Motion Design, JavaScript* November 2026

- Launched a live visual competitive analysis site comparing 17 premium hoodies from 12 brands side by side on price, style, and quality
- Prototyped 3 UX concepts with AI coding tools and shipped the side-by-side view after it showed quality-for-price gaps most clearly

AI Feedback Dashboard | *TypeScript, React, SQL, Cloudflare Workers AI* January 2026

- Built a live React dashboard that sorts customer feedback from 5 channels by sentiment, urgency, and topic so product teams can prioritize fixes
- Designed an LLM pipeline on Cloudflare Workers AI and Workflows that writes a weekly brief of top issues, with rule-based backups if the AI fails

LEADERSHIP

Management Leadership for Tomorrow (MLT) - *Career Prep Fellow* October 2025 – Present

- Established MLT's first partnership with UT Austin and organized 3 recruiting events that connected 50+ fellows with employers and alumni
- Selected for a competitive 18-month fellowship that prepares high-achieving students from underrepresented communities for leadership careers

Girlstart - *Project Lead* August 2025 – May 2026

- Led a 4-person team that audited HR systems in 6 states against AI hiring and privacy rules and found 15 compliance gaps in hiring and onboarding
- Turned the findings into requirements for 4 standard HR workflows and a prioritized fix roadmap that leadership adopted for 2026 planning

Breakthrough Central Texas - *Student Ambassador* August 2024 – Present

- Mentored 20+ high school students on college and internship recruiting through workshops and panels with the Breakthrough Internship Network

SKILLS & CERTIFICATIONS

Skills: Product Strategy, Roadmapping, PRDs, User Stories, Requirements Gathering, User Research, KPIs, Stakeholder Management, Agile, Scrum
AI: LLMs, AI Agents, Agent Orchestration, MCP, RAG, AI Evals, Prompt Engineering, Generative AI, Claude Code, Cursor
Technical: SQL, Python, R, JavaScript, TypeScript, React, Node.js, REST APIs, OAuth, Cloudflare, Git, PostgreSQL, Data Pipelines, SDLC
Tools: Jira, Confluence, Figma, Tableau, Power BI, Excel, GitHub, PowerPoint, Notion, Google Workspace
Certifications: Anthropic AI Fluency (2026), Dell Technologies Generative AI (2025), IBM IT Project Management Professional (2025)
Languages: Karenni (native), Burmese (fluent), Zotung (conversational) | **Interests:** Web Design, Fashion, Soccer, Photography, Youth Coaching
